PROFESSIONAL SUMMARY

I have solid experience creating RESTful APIs using ASP.NET Core, Node.js, and NextJS. I have independently worked on and successfully managed the development processes of numerous projects involving NoSQL/SQL databases such as MongoDB, MSSQL, and PostgreSQL, including educational technology solutions recognized by Teknofest. I have adopted methodologies such as Agile and have strong knowledge of SOLID principles, clean architecture, and modern development practices. I have C1-level English proficiency and place great importance on continuous learning and innovation when developing user-experience-focused applications.

SKILLS

Backend Technologies

- C#, ASP.NET Core, .NET 6-10
- Entity Framework Core, LINQ
- RESTful API design and development
- SQL (PostgreSQL, MSSQL)
- NoSQL (MongoDB)
- Node.js, NextJS, Express.js, TypeScript

Development Tools

- Git, GitHub
- Agile, Scrum Methodologies
- CI/CD (GitHub Actions)
- Docker

Languages

- Turkish (Native)
- English (C1 - Professional Proficiency)

PROFESSIONAL EXPERIENCE

Presidency of the Turkish Health Institutes (TÜSEB)

January 2026 - March 2026

- Worked with core HTML, CSS, and JavaScript and prepared the infrastructure for establishing a component-based structure.
- Built a JavaScript architecture with a class-component structure.
- Created clones of major platforms such as YouTube and X (Twitter) and worked on the existing structure.

Teknofest

2025

Lead Developer

- Developed 4 fully functional projects.
- We ranked 10th in the Education Technologies category at Teknofest Istanbul 2025. One of our projects received a prestige award.
- Independently completed all backend and frontend development for the projects.

Tirsan

July 2024 - August 2024

Intern

Developed the backend using ASP.NET Core and applied SOLID principles and MVC architecture.
Contributed to AngularJS-based frontend development processes.
Actively participated in municipal-level digital transformation projects.

JuniusTech

September 2023 - February 2025

Full-Stack Developer

- Developed 4 RESTful APIs for different clients.
- Performed database operations using MongoDB and gained advanced proficiency.
- Focused on clean architecture principles in all projects.
- Developed fully secure authentication and authorization systems for every project.
- Served as the lead developer on 2 projects.

Sakarya Metropolitan Municipality, IT Department

September 2022 - January 2023

Intern

Developed the backend using ASP.NET Core and applied SOLID principles and MVC architecture.
Contributed to AngularJS-based frontend development processes.
Actively participated in municipal-level digital transformation projects.

EDUCATION

Sakarya University - Bachelor's Degree - 2019 - 2024

Computer Engineering - Graduated
GPA: 2.48

Sakarya University - Master's Degree - 2025 - Present

Computer Engineering
GPA: 3.50

EDUCATION

Udemy - 2023

Modern Web Development Course - Engin Demiroğ
100+ Hours

Develhope - February 2023 - August 2023

Full-Stack Web Development Bootcamp
Topics: JavaScript, TypeScript, React.js, Node.js, Git
